

Linley Schetky – Lake Oswego, OR

“Passage”

Long time Portland area artist: graphic designer, illustrator, watercolorist and metal artist/sculptor. Sculptural style: unique metal creations fabricated from mild steel in combination with other materials, some found-object creations.

Artist Statement: I relate to perfect curves with a touch of lopsided edge. I like definite and orderly shapes along with primitive and unexpected touches. Simplicity appeals to me as does quality and “presence.” My past series have referred to the exploration of botanicals, Pacifica, vessels, shields, weavings, arches, kinetic forms and sculptural abstractions. Schetky is represented by several art galleries in Oregon and Arizona.
