Oregon National Incident-Based Reporting System (ONIBRS)

The collection of uniform crime statistics began in 1927, originally developed by the International Association of Chiefs of Police. In 1930, Congress authorized the Attorney General to gather crime statistics, who then designated the FBI to manage the reporting program and its summary reporting system. Cannon Beach PD continues to report crimes to the FBI via ONIBRS with a zero-error rate. This year the FBI sent out online training modules for continuing education and to assist agencies in reporting accurately.

Alarm Servicing

At the beginning of each year, alarm permits are sent to permit holders to update and verify their information. Consistent billing for false alarms brings awareness of any issues to the permit holder and helps prevent further false alarm responses.

During 2019 we responded to a total of **97** alarm calls for service.

- **16** ~ Warning letters for chargeable alarms 2 plus offenses.
- **9** ~ Billed for multiple false alarms 3 or more offenses.
- **7** ~ Letters sent for need of an alarm permit.
- **0** ~ Revocation of alarm permit.
- **0** ~ Actual Burglary alarm response.
- **1** ~ Reinstatement of alarm permit.
