## HAYSTACK PUMP STATION PROJECT UNDERWAY

The City of Cannon Beach's Public Works department is currently overseeing a project to upgrade the Haystack wastewater pump station on S Pacific Street. The project consists of the following:

- Installing approximately 200 lineal feet of new HDPE sanitary sewer forcemain.
- Installing new valve access vault.
- Installing two new 5 HP wastewater lift station pumps.
- Installing new controls and autodialer for emergency notifications.

This pump station was built in 1970, and still operates using much of its original equipment. Several notable deficiencies at this pump station were identified in the City's Wastewater Master Plan, causing

Public Works staff to identify this site as a priority for upgrades. Adequate funds for this project are budgeted in the 2021-2022 fiscal year.

After a public bidding process, Clackamas Construction Inc. from Boring, Oregon, was awarded the construction contract. The project began on November 29 and is expected to be completed by the end of the year. Based on the nature of the project, the narrow street and the overall tightness of the surrounding area, the City is asking anyone who is not a homeowner on S Pacific Street to avoid the area. During construction, vehicle traffic will be restricted and beach access will be limited. Affected homeowners were notified via phone calls or direct contact.

This project reflects the Public Works department's commitment to ensuring the safe and ongoing operations of the City's utility systems, services, and overall infrastructure.
